**March 13, Time, water irrigation measures change**

LIVE OAK, FL, March 9, 2016 — On Sunday, March 13<sup>th</sup> the Suwannee River Water Management District (District) will spring forward with Daylight Savings Time. In addition to changing the clocks ahead one hour, residents and businesses within the District are reminded of the shift in current lawn and landscape irrigation measures.

**Irrigation measures change March 13, 2016**

The District encourages residents and commercial entities to practice Florida Friendly Landscaping methods. Examples of Florida Friendly Landscaping methods include collecting rainwater, reducing storm water runoff and planting Florida native vegetation. Incorporating these and other steps may significantly reduce the need to irrigate.

Year-round lawn and landscape irrigation measures are a statewide effort among all five of the water management districts. During Daylight Savings Time, from March 13<sup>th</sup> until November 6<sup>th</sup>, residents and commercial properties are permitted to water twice per week.

Permitted hours of irrigation are between 4 p.m. and 10 a.m. Watering during any other time is prohibited. Non-residential properties may water on Tuesdays and Fridays. Residential properties having even numbered addresses or addresses ending with letters A-M may water on Thursday and Sunday. Residential properties having odd numbered addresses or addresses ending in with letters N-Z may water on Wednesdays and Saturdays.

<b>Time of Year</b>	<b>Residences - Odd Numbered Addresses or No Address</b>	<b>Residences -Even Numbered Addresses</b>	<b>Nonresidential Properties</b>
Daylight Saving Time	Wednesday & Saturday	Thursday & Sunday	Tuesday & Friday
