

**Appendix G**  
**WRV Duration Curves**

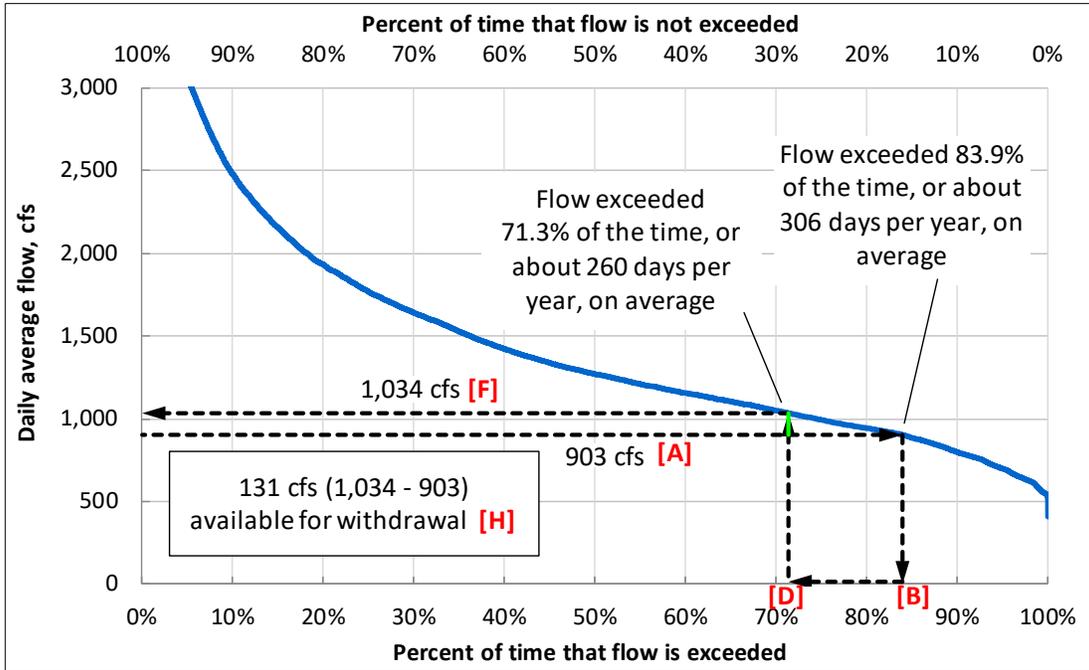

Figure 1. Flow duration curve depicting threshold flow protective of paddling on the LSFR

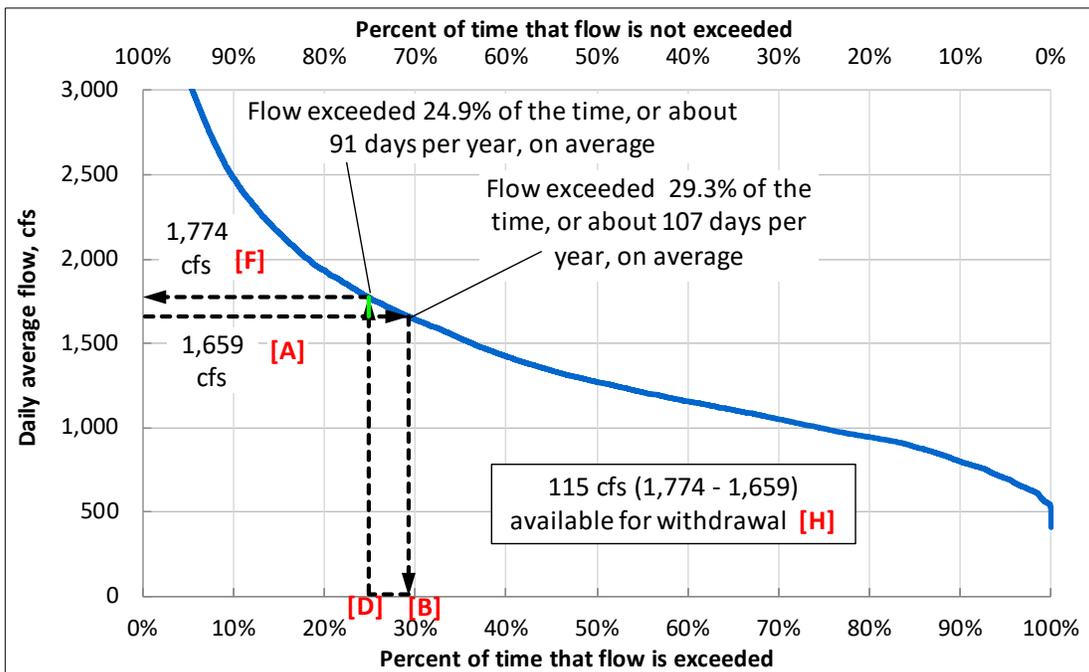

Figure 2. Flow duration curve depicting threshold flow protective of boating on the LSFR

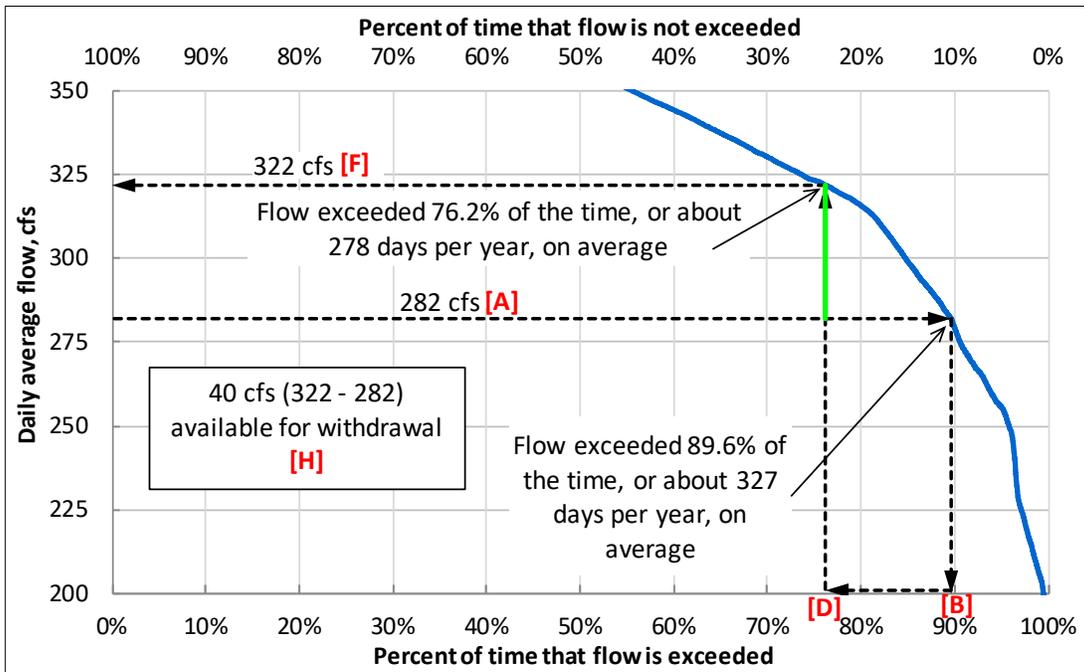

Figure 3. Flow duration curve depicting threshold flow protective of SAV when tubing on the IR

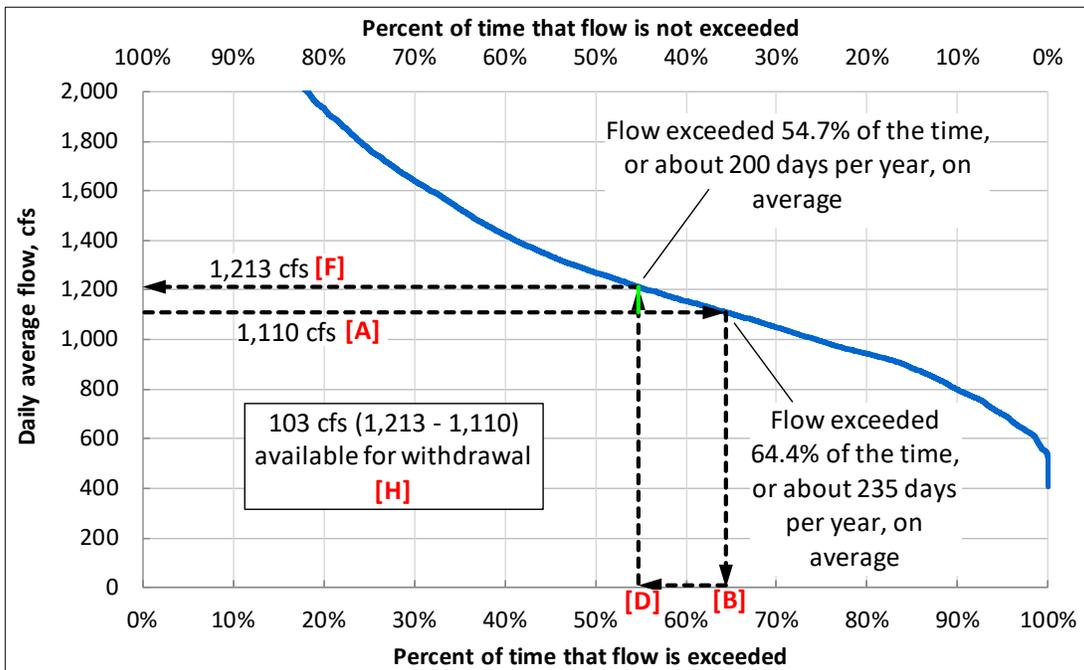

Figure 4. Flow duration curve depicting threshold flow protective of fish passage on the LSFR

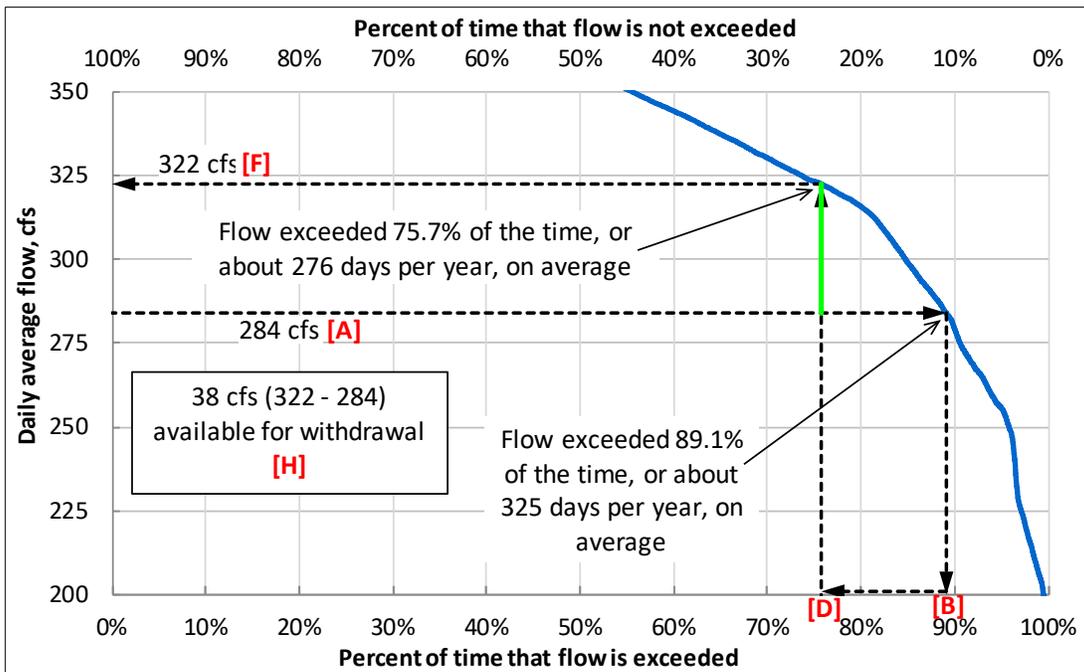

Figure 5. Flow duration curve depicting threshold flow protective of fish passage on the IR

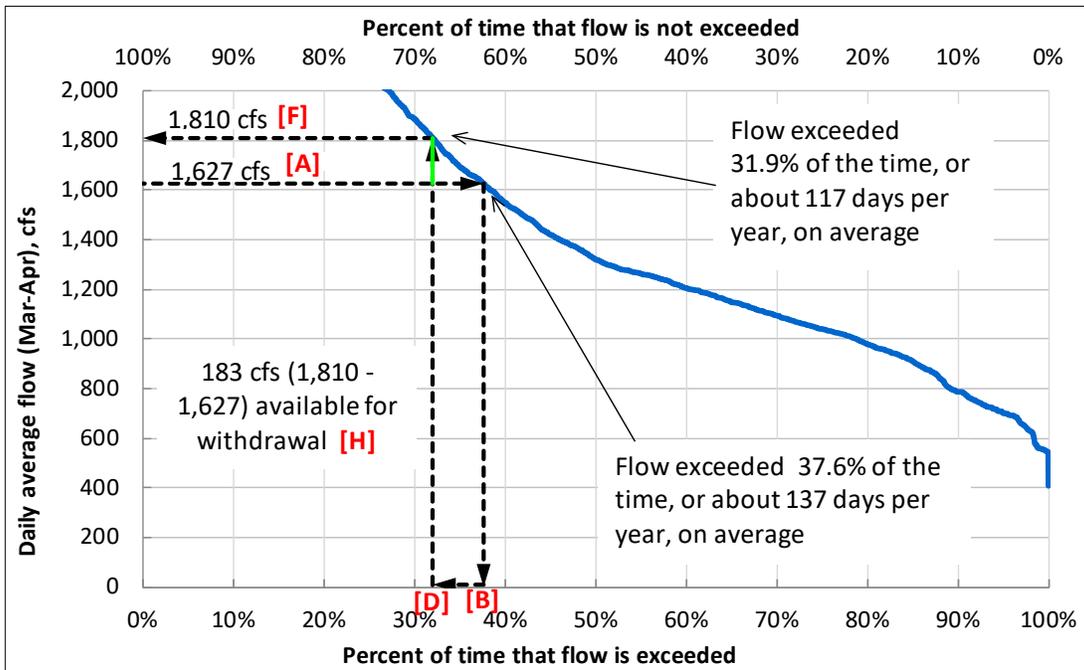

Figure 6. Flow duration curve depicting threshold flow protective of Gulf sturgeon passage on the LSFR (March-April)

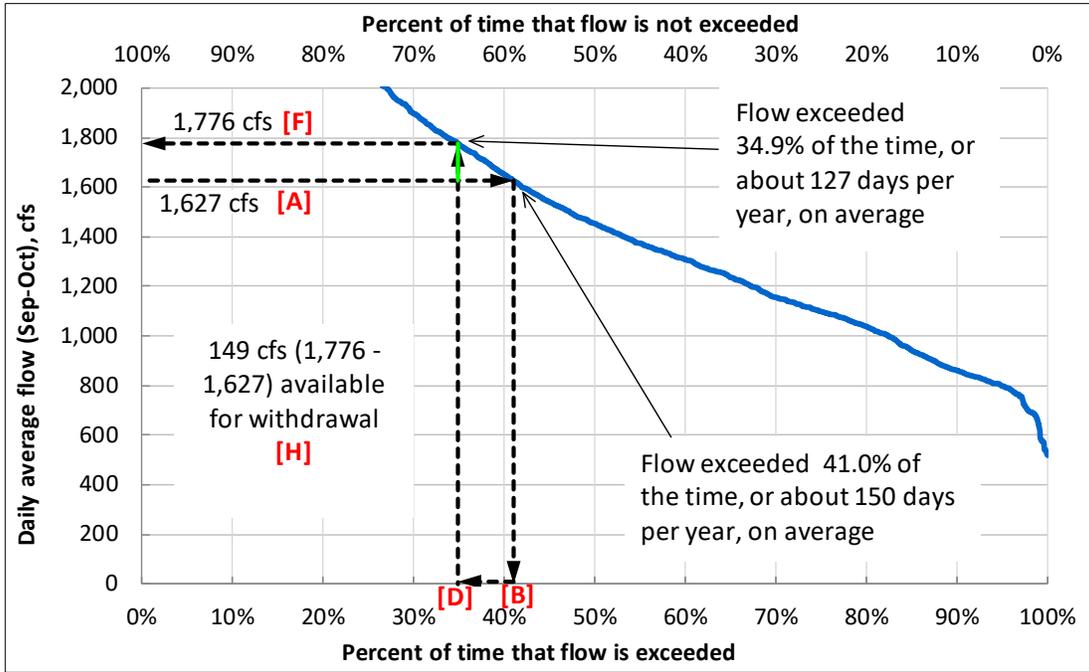

Figure 7. Flow duration curve depicting threshold flow protective of Gulf sturgeon passage on the LSRF (Sep-Oct)

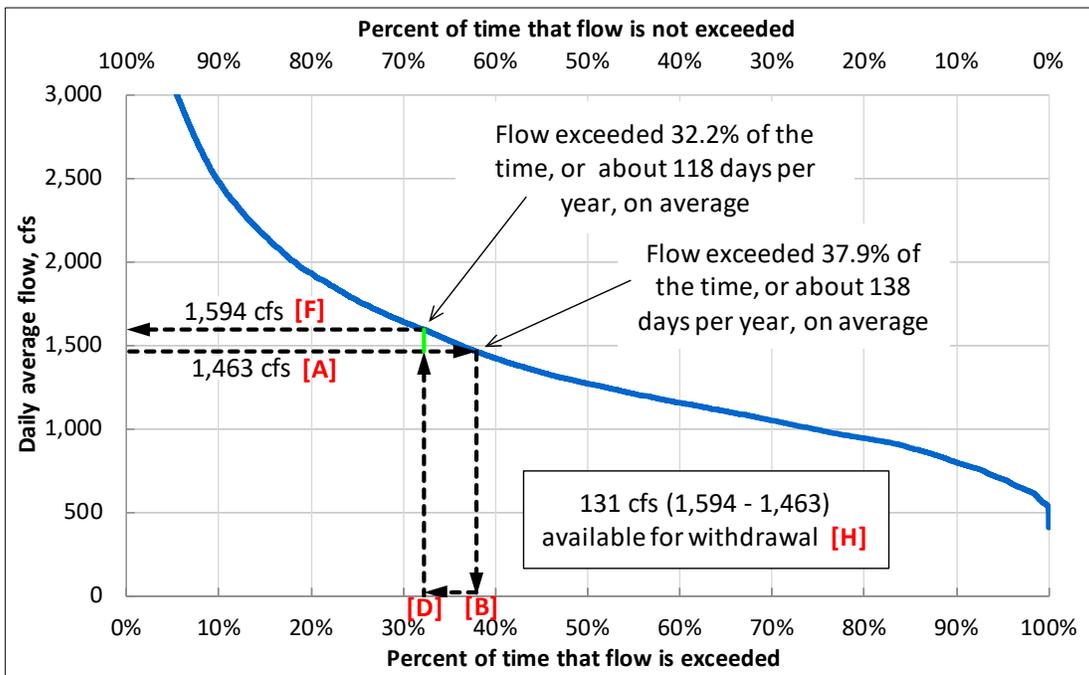

Figure 8. Flow duration curve depicting threshold flow protective of exposed roots on the LSRF

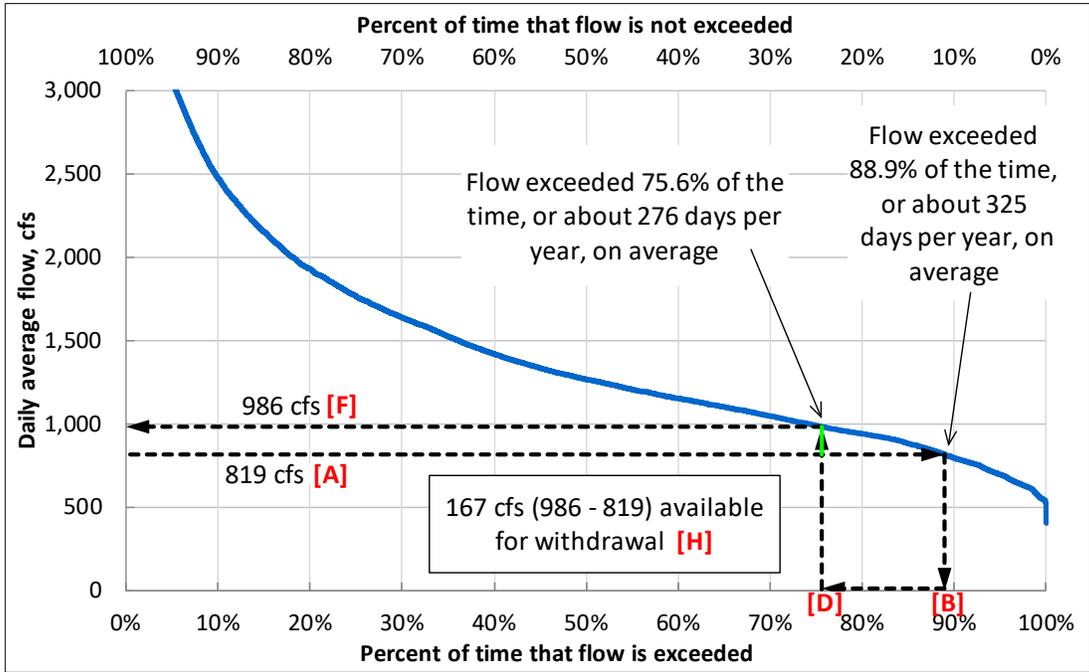

Figure 9. Flow duration curve depicting threshold flow protective of snags on the LSRF

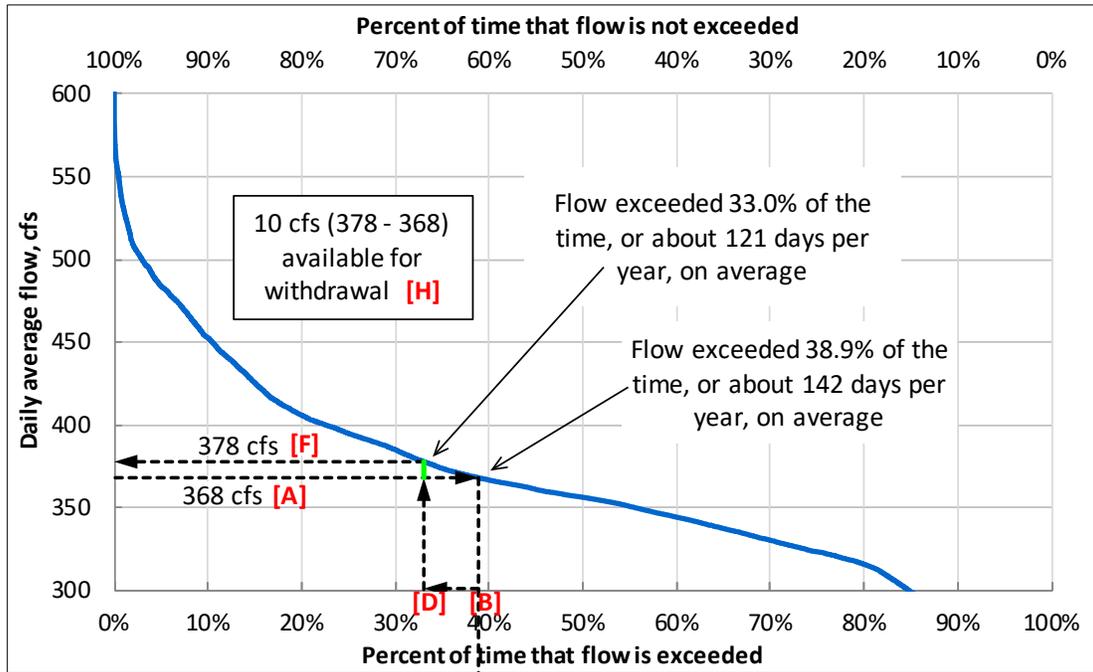

Figure 10. Flow duration curve depicting threshold flow protective of exposed roots on the IR

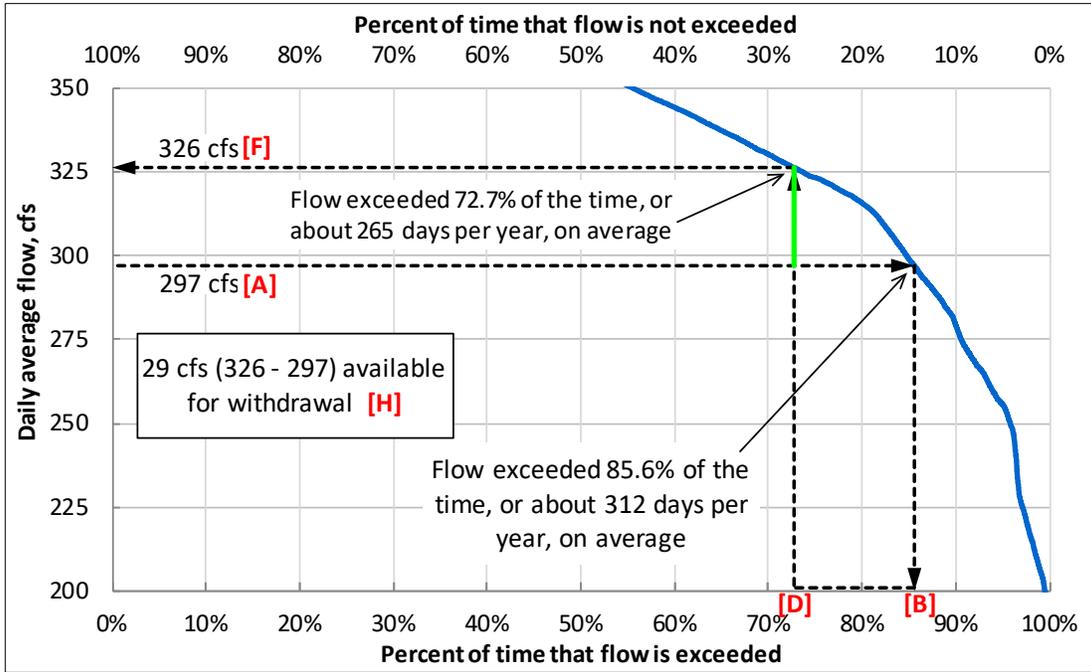

Figure 11. Flow duration curve depicting threshold flow protective of manatee thermal refuge on the IR

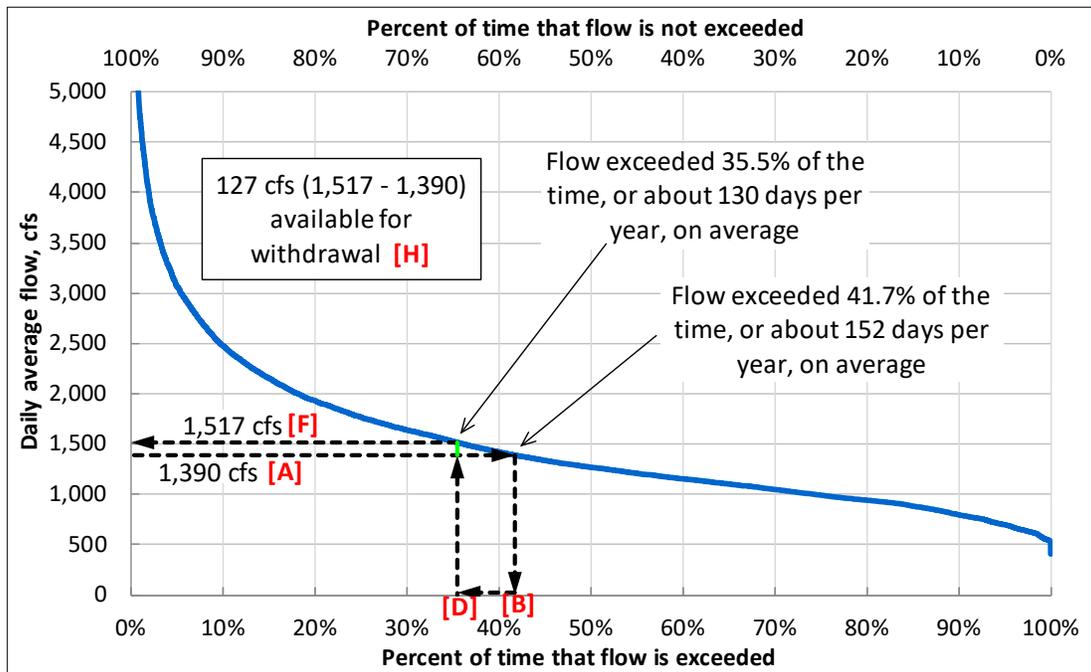

Figure 12. Flow duration curve depicting threshold flow protective of hardwood swamp in the LSFR

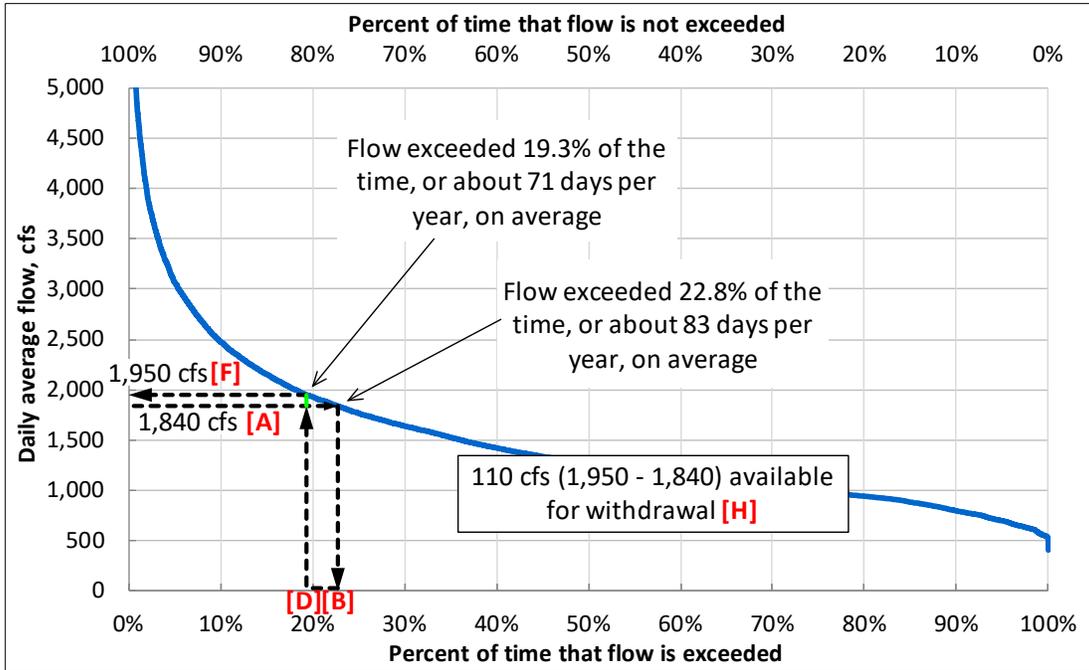

Figure 13. Flow duration curve depicting threshold flow protective of cypress swamp in the LSRF

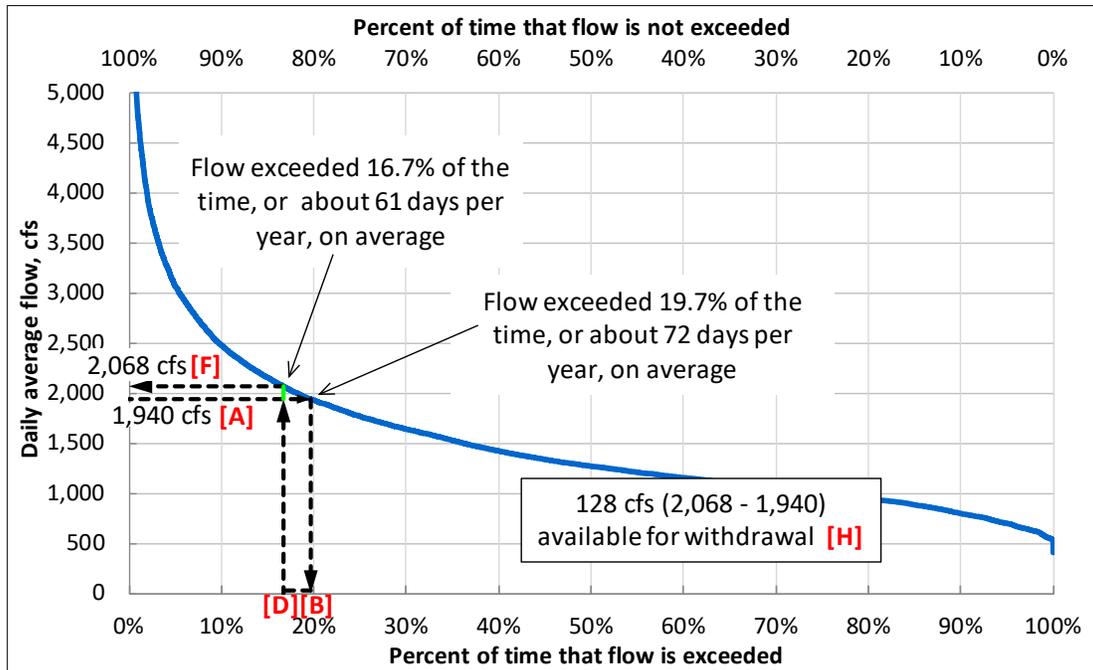

Figure 14. Flow duration curve depicting threshold flow protective of hardwood cypress in the LSRF

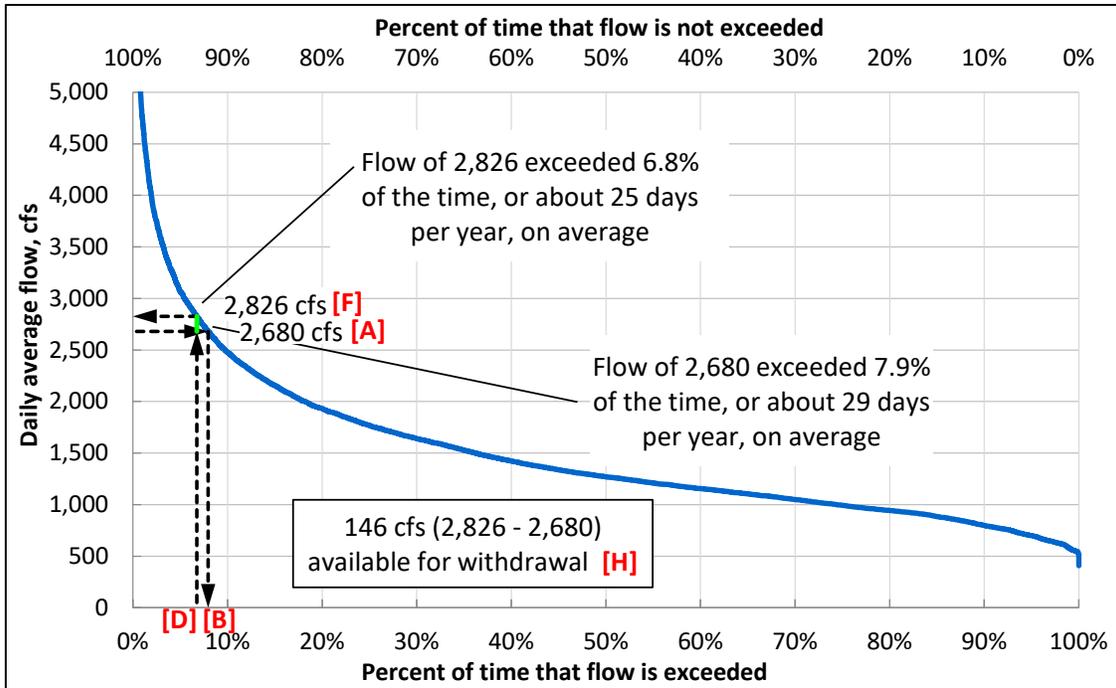

Figure 15. Flow duration curve depicting threshold flow protective of hydric hardwood hammock in the LSRF floodplain

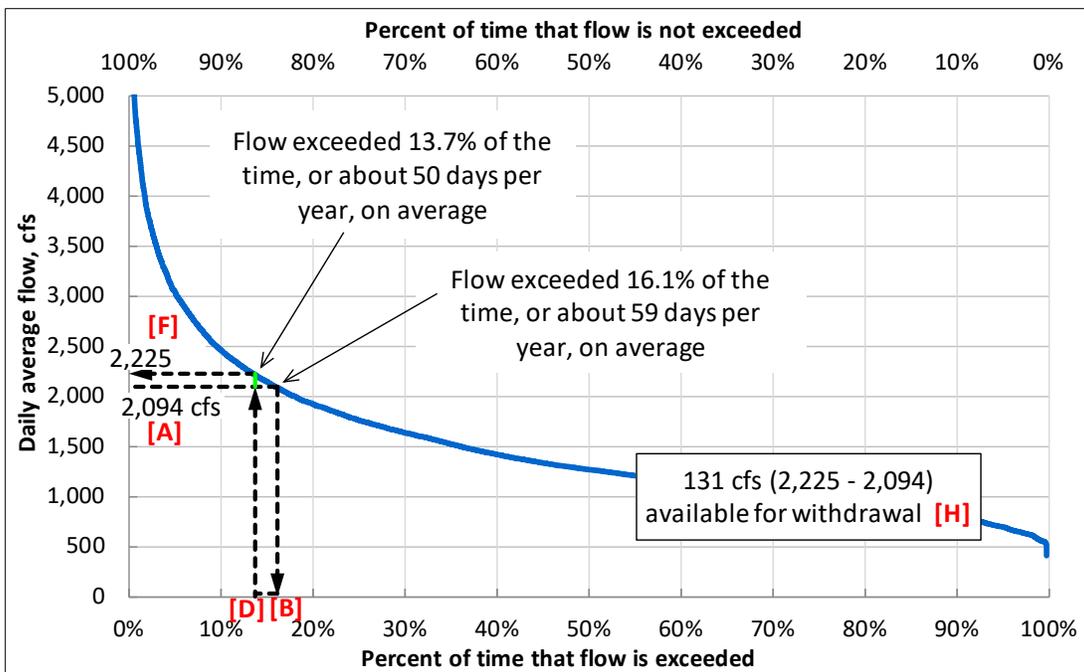

Figure 16. Flow duration curve depicting threshold flow protective of hydric soils in the LSRF

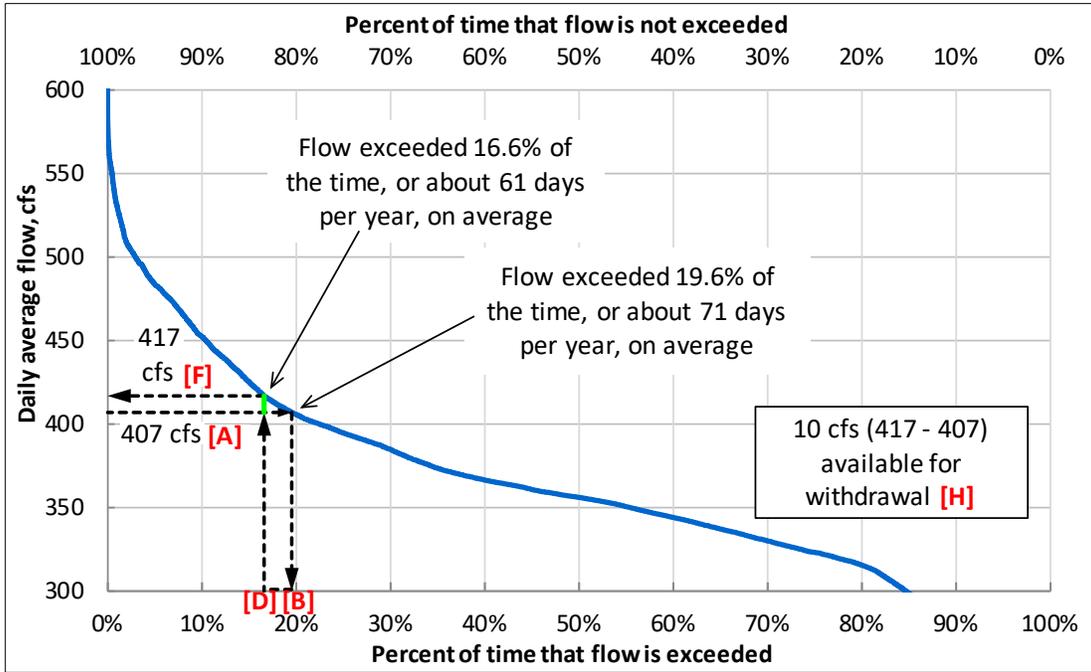

Figure 17. Flow duration curve depicting threshold flow protective of hydric soils in the IR floodplain

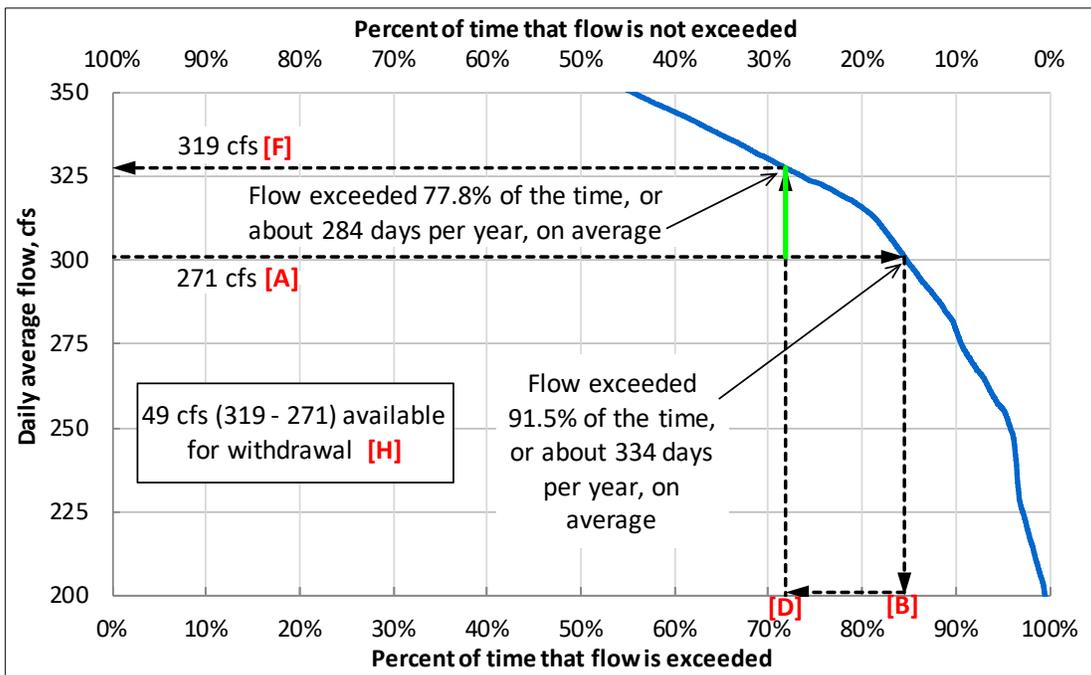

Figure 18. Flow duration curve depicting threshold flow protective of SAV on the IR (station 26012.56)

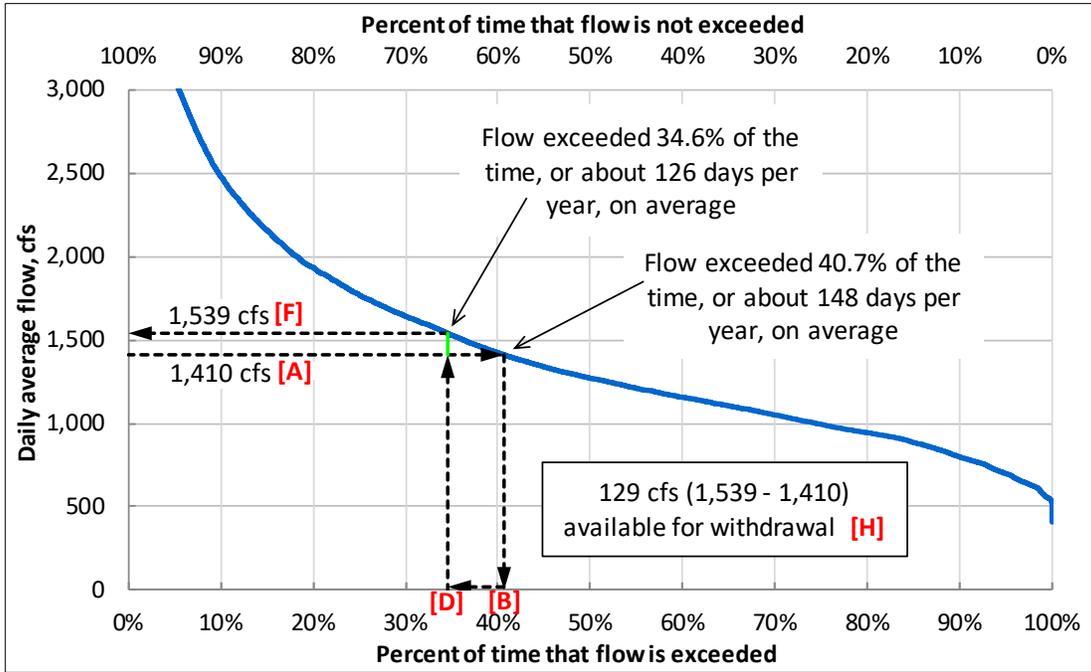

Figure 19. Flow duration curve depicting threshold flow protective of bankfull conditions on the LFR

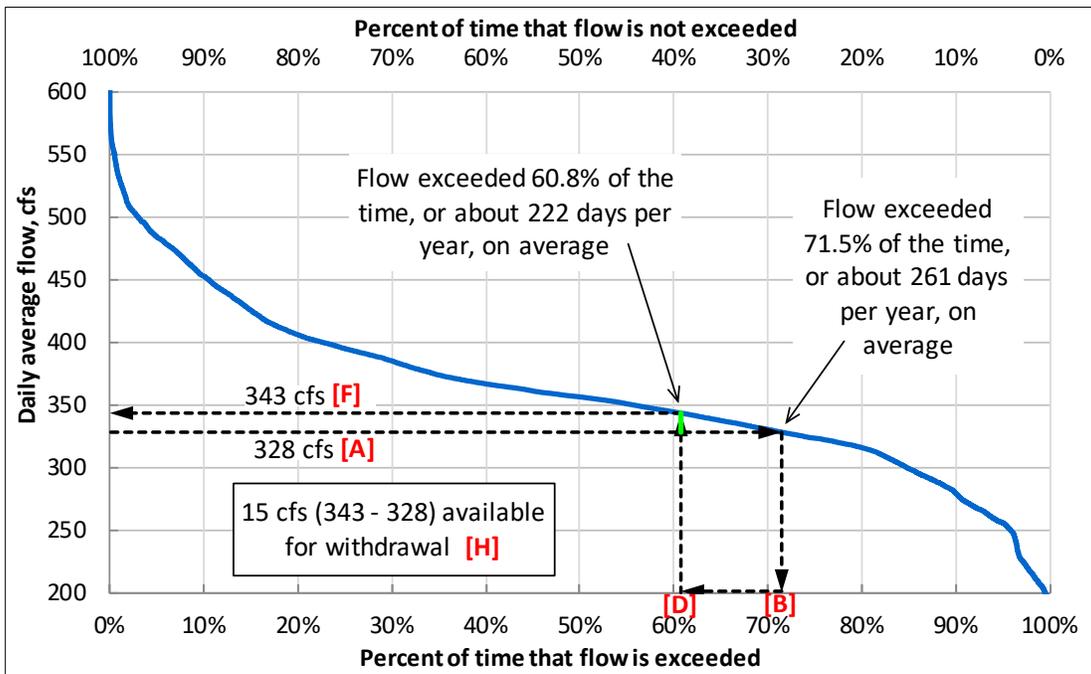

Figure 20. Flow duration curve depicting threshold flow protective of bankfull conditions on the IR
